Applicants would like to point out to the Examiner that U.S. Patent Application No. 09/105,956 was brought to the Examiner's attention in an IDS filed in the prior application. The application has now matured into a U.S. Patent No. 6,054,355, a copy of which is enclosed.

An English abstract of Japanese Patent Application No. 11-74527 was submitted in the prior application in lieu of a statement of relevance. GB 2347789 was cited by the Examiner in the prior application.

This submission does not represent that a search has been made or that no better art exists, and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,
